---

Esther,

As I understand it, today is the last day to ask the EPA not to allow glyphosate (now required to be labeled as a carcinogen) to be renewed. I urge you to help us prevent its renewal! It is used so ubiquitously that everything is contaminated, from our ground water, air, soil, vaccines, food supply including organic foods! This madness needs to end.

Thank you for your help.

All the best,  
Rosemary Moneé Hardesty
